## MOUNT VERNON Neighborhood Map

### MVBA Boundary

Mount Vernon is the historic heart of Baltimore and home to the Baltimore Washington Monument, the first memorial erected to honor our nation's first President. The neighborhood consists of different districts, each with distinctive qualities, which help create Mount Vernon's uniqueness.

### Local Historic District

### Federal Historic District

Mount Vernon is one of 84 local historic districts in Baltimore City and also contains a Federal Historic District immediately surrounding Mount Vernon Place and the Washington Monument. The Commission for Historical and Architectural Preservation (CHAP) works with the MVBA to continually monitor, approve, and lead the charge to preserve the historically significant structures that contribute to the local historic district designation. Designation helps to protect and celebrate the neighborhood's rich history.

### Historic Charles Street

Charles Street, one of the oldest thoroughfares in America, has roots that predate Baltimore itself. Before Europeans settled around the Chesapeake Bay, it is speculated that a Susquehannock Indian trail ran along what is now part of Charles Street. It is now a vibrant commercial strip home to shopping, restaurants, and other businesses.
